

PLANS FOR THE SURVEY OF THE ALASKA BOUNDARY

United States and Canadian
Parties Will Find the Inter-
national Line.

WORK TO START IN JUNE

VANCOUVER, B. C., May 14.—Prof. W. F. King, chief astronomer for the Dominion government, is making arrangements for the survey of the Alaska boundary, according to the tribunal award. He will organize his party in Vancouver, working in conjunction with United States Commissioner Tillman. In discussing the work, Professor King said:

"By the award certain mountain summits were decided upon as being the points of the line, and these are to be joined by a straight line to define the international line between Canada and the United States. The survey, of course, is a joint one, and the Dominion and the United States each are sending three parties there. Two of these joint parties are to work on the Chukot river, and a third will proceed up the Stikine river. These representatives of both governments will work in conjunction in all that they do in connection with the delimitation for all time of the now settled boundary between Alaska and the northern portion of British Columbia and the Yukon.

"We can get to work actually by the end of the month if we start, as scheduled, by May 21. We hope to be on the scene of operations by June. The party of each government consists of the usual surveyors' outfit of about eight or nine men each. We shall take no horses.

"We made a topographical survey of the same region about ten years ago, obtaining information for the then coming sitting of the tribunal. This also was a joint survey, and we secured pretty accurate information with regard to the territory that we are now proceeding to go over.

BOY'S LIFE IS TWICE AS VALUABLE AS THAT OF GIRL

New Jersey Judge Makes Distinction
in Awarding Damages Growing
Out of Trolley Accident.

BEAUTY NOT CONSIDERED

NEW YORK, May 14.—A boy's life is twice as valuable as that of a girl, according to a decision by Judge Adams, of the Essex County Circuit Court, at Newark, N. J. Further, it was held that \$5,000 awarded to the father of Evan F. J. Eastwood, killed in a grade-crossing trolley accident, is not excessive, but a verdict of \$5,000 awarded to the father of the girl was reduced by the court to \$3,000, although the girl, Ella Werpup, was said by many to be the most beautiful girl in Newark. The damage suits grew out of the Clifton-avenue trolley accident of Feb. 19, 1903, in which nine high school pupils were killed. When the cases were tried the trolley company acknowledged its liability and the jury was asked simply to fix the amount of damages to be paid in each case, the only testimony taken being to show the character of the deceased and the estimated future earning capacity of each.

GLUCOSE AND COLORING MATTER SOLD FOR JELLY

Manufacturers Admit that Adul-
teration Forms 60 Per Cent.
of the Product.

NEW YORK, May 14.—Witnesses before the United States commission to establish standards for pure foods which is sitting here, declared that jellies and jams are generally adulterated. Glucose and coloring matter, they assert, are not harmful, and one man, speaking for the manufacturers of preserves, claimed that 60 per cent. of the "jellies" made in the United States are imitations, composed of glucose and coloring matter. Some jellies, he said, contained no fruit at all. Another witness said that if the manufacture of compound jellies by the mixing of different fruits were forbidden, 75 per cent. of the factories making the United States would have to close. The committee will continue its hearings ten days.

FIVE MEN KILLED AND EATEN BY CANNIBALS

Feast of Admiralty Island Savages
Is Followed by a Wholesale
Execution.

VANCOUVER, B. C., May 14.—Mail advices on the Australian steamer Mowera to-day are that five men were killed and eaten by cannibals of the Admiralty Islands in the South sea. The British warship Condor was sent to the scene and set fire to the village where the cannibals resided. The Condor threatened to annihilate the village if it did not hand over the cannibals. This was done and they were shot.

NEWSPAPER WILL BE PUBLISHED AT SEA

Marconi Says Success of Wireless
Telegraph Makes New Venture
Possible.

NEW YORK, May 14.—William Marconi was a passenger on the Campania, which arrived to-day, who came over with several assistants to continue his experiments at the Glace bay station, Cape Breton. Mr. Marconi says he succeeded in maintaining constant communication with shore stations during the voyage. The success of these tests, he says, insures the publication of a daily newspaper at sea. A new set of instruments, which had been prepared especially for use in the trials made during the voyage, enable the operators, the investors, to communicate with the eastern shore for a distance of 1,000 miles. In the meantime, before signals with the eastern shore failed, the station at Glace bay, on the western shore, had been picked up and communication was continued uninterrupted.

SCHOOL FOR ADULTS ADVOCATED IN BOSTON

Extension of Education Discussed
by American Social Science
Association.

BOSTON, May 14.—The extension of education to adults was the general topic considered at the closing session of the convention of the American Social Science Association. President Charles W. Eliot, of Harvard University, outlined the problem. The programme also included papers by Dr. Melville Dewey, state librarian at Albany, N. Y., who spoke on "Higher Education for Adults at It is Through Life," and by Dr. Henry M. Lippis, superintendent of free lectures of New York city, who discussed the relation of free public lectures to the education of the people.

Good Undermuslins at a Very Large Saving

THE second week of this regular May sale of Muslin Underwear opens with the stocks thoroughly reinforced—and the offering of many fine bargains that were not ready last week. So far the selling has passed all records—the most positive sort of proof that the values offered are out of the ordinary. A passing glance at the enlarged selling space devoted to Muslin Underwear with its pile after pile of snowy garments can only demonstrate the great size of the stock—but a critical examination in detail—noting the superior workmanship, the generous proportion, the grace and beauty of design, the high quality of materials and the artistic choice of trimmings cannot fail to convince the examiner that these Undermuslins are as near perfection as is possible.

Then It Is a Question of Price—And This Sale Means a Saving of at Least One-Third

CORSET COVERS

Plain Covers, seams felled, pearl buttons, button holes worked, perfect fitting, 12c value, 5c
Corset Covers trimmed at the neck with narrow embroidery edge, 25c value for 15c

REAR BARGAIN TABLE FOR MONDAY

A large accumulation of remnants, odds and ends of summer fabrics. Some of these are from last season, but the styles are just as desirable as any of this year's patterns; a few slightly soiled. Prices were formerly from 65c to \$1.50 yard; choice for 36c

Millinery Crash

The blue pencil man went through our fine trimmed Hat stock yesterday and as a consequence there are many surprises in store for Monday's visitors. In the first place—

Any Hat in stock, you have probably admitted one but felt it was too expensive, formerly \$25.00, \$28.00 and \$30.00, now 15.00
The next jump in price brings all former \$12.00, \$13.50, \$15.00 and \$16.75 Hats to 10.00
Another lot, about the largest assortment is in this lot, consists of all former \$9.00 and \$10.00 Hats. Many of them have only been trimmed a week, but the blue marks call for 7.50
Another lot of Hats, some of them were \$9.00, others only \$6.00, but all are rare values for this new price 5.00
About 50 trimmed Hats that have been on hand longest, prices up to \$5.00, for 98c
